

Independent Assurance Report

To the Management of Japan Mint

We were engaged by Japan Mint (the “Company”) to undertake a limited assurance engagement of its LBMA Responsible Gold and Silver Guidance Compliance Report (the “Compliance Report”) for the year ended 31 March 2024. The assurance scope consists of the Company’s Compliance Report.

The Company’s responsibility

The management of the Company is responsible for the preparation and fair presentation of its Compliance Report in accordance with the requirements of the LBMA Responsible Gold Guidance Version 9 and the LBMA Responsible Silver Guidance Version 1 (the “Guidance”). This responsibility includes establishing appropriate risk management and internal controls from which the reported information is derived. The criteria identified by the management as relevant for demonstrating compliance with the Guidance are the activities described within the Company’s Compliance Report.

Our responsibility

Our responsibility is to carry out a limited assurance engagement in order to express a conclusion based on the work performed. We conducted our assurance engagement in accordance with the ‘International Standard on Assurance Engagements (ISAE) 3000, Assurance Engagements other than Audits or Reviews of Historical Financial Information’ issued by the International Auditing and Assurance Standards Board and the guidance set out in the LBMA Responsible Sourcing Programme - Third Party Audit Guidance (the “Audit Guidance”).

The extent of evidence-gathering procedures performed in a limited assurance engagement is less than that for a reasonable assurance engagement, and therefore a lower level of assurance is provided.

This report has been prepared for the Company for the purpose of assisting the management in determining whether the Company has complied with the Guidance and for no other purpose. Our assurance report is made solely to the Company in accordance with the terms of our engagement. We do not accept or assume responsibility to anyone other than the Company for our work, or for the conclusions we have reached in the assurance report.

We planned and performed our work to obtain all the evidence, information and explanations considered necessary in relation to the above scope. These procedures included:

- Inquiring management to gain an understanding of the Company’s processes and risk management protocols in place
- Inquiring relevant staff responsible for the preparation of the Compliance Report
- Site visit to the Head Office of the Company
- Assessing the suitability of the policies, procedures and internal controls that the Company has in place to conform to the Guidance
- Reviewing a selection of the supporting documentation, including gold and silver supplier counterparty due diligence file and transaction’s documentation
- Testing a selection of the underlying processes and controls that support the information in the Compliance Report
- Reviewing the presentation of the Compliance Report to ensure consistency with our findings

Inherent limitations

Non-financial information, such as that included in the Company’s Compliance Report, is subject to more inherent limitations than financial information, given the more qualitative characteristics of the subject matter and the methods used for determining such information. The methods used by Refiners to comply with the Guidance may differ. It is important to read the Company’s Conflict-Free Mineral Management Policy available on the Company’s website: https://www.mint.go.jp/media/2023/04/2023eng-2_conflict_free_gold_policy.pdf

Conclusion

Based on the limited assurance procedures performed, as described above, nothing has come to our attention that would lead us to believe that the Company's Compliance Report for the year ended 31 March 2024 does not, in all material respects, describe fairly the activities undertaken during the year to demonstrate compliance, and management's overall conclusion contained therein is not in accordance with the requirements of the Guidance.

Independence, quality management and competency statement

We have complied with the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which includes independence and other requirements founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior. In accordance with International Standard on Quality Management 1, we design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

In conducting our engagement, we confirm that we satisfy the criteria for assurance providers as set out in the Audit Guidance to carry out the assurance engagement.
